

DG Building Product Information Sheet

Version 1.1 – Issued 20/09/24

Product

Product name	Door Grille
Product type	Door Grille
Product Identifiers	DG52

Product description and intended use

- The DG is a series of aluminium louvre faced non vision door grilles which are available with either a channel frame or flanged frame.
- The DG can be supplied either with an anodised finish or with a powder coat finish.

Relevant NZBC clauses

- Clause B2 Durability: Performance B2.3.1 (c) 5 Years
- Clause H1 Energy Efficiency: Performance H1.3.6

Contributions to compliance with NZBC

- **B2:** The lifespan of the DG will vary based on the environment it is installed in. For a standard HVAC installation, the DG would provide a durability of a minimum of 5 years. Excessively corrosive or harmful environments or exposure to fire, heat or water will reduce the lifespan of the DG.
- **H1:** When installed in a commercial building the DG must be designed to have a maximum pressure drop of 12Pa.

Relevant standards

- N/A

Conditions and limitations of use

- The DG should be specified by a suitably qualified engineer.
- The DG should be installed by a suitably qualified and trained tradesperson.

Warnings and bans

The DG is **not** subject to a warning or ban under section 26 of the Building Act 2004.

Installation details and product datasheet
