

Steel Air Valve Building Product Information Sheet

Version 1.1 – Issued 20/09/24

Product

Product name	Steel Air Valve
Product type	Exhaust/Return Grille
Product Identifiers	SAV

Product description and intended use

- The SAV is a simple exhaust grille with an adjustable cone for airflow adjustment.
- The SAV is constructed from galvanised steel and the diffuser and cone is available in a white powder coat finish.
- The SAV comes with a mounting frame for easy installation.
- A gasket is installed between the frame and SAV to ensure a perfect seal.
- The SAV is available in nominal diameters 100, 150 and 200.

Relevant NZBC clauses

- Clause B2 Durability: Performance B2.3.1 (c) 5 Years
- Clause H1 Energy Efficiency: Performance H1.3.6

Contributions to compliance with NZBC

- **B2:** The lifespan of the SAV will vary based on the environment it is installed in. For a standard HVAC installation, the SAV would provide a durability of a minimum of 5 years. Excessively corrosive or harmful environments or exposure to fire, heat or water will reduce the lifespan of the SAV.
- **H1:** When installed in a commercial building as an exhaust grille the SAV must be designed to have a maximum pressure drop of 30Pa.

Relevant standards

- N/A

Conditions and limitations of use

- The SAV should be specified by a suitably qualified engineer.
- The SAV should be installed by a suitably qualified and trained tradesperson.

Warnings and bans

The SAV is **not** subject to a warning or ban under section 26 of the Building Act 2004.

Installation details and product datasheet
